

# Post-Hospital / Post-Rehab Transitional Stay At Broadview

## TEMPORARY LIVING OPTIONS WITH SUPPORT

After a hospitalization (hip or knee surgery, stroke, etc.) a Senior can have a short stay at Broadview to receive helpful support in a homelike setting:

- PT continued in an apartment
- Live in a furnished room or apartment
- Three daily meals provided
- Nurse on staff
- 24 hour resident care
- Emergency response system

## LENGTH OF STAY FLEXIBILITY

A resident may stay for a few weeks or longer, depending on the recovery process. They always have the option of returning to their own home at any time.

## ADVANTAGES

- Minimize the risk of a fall or mishap
- Extra help lessens the chance of readmission
- Get stronger in a faster time
- Safety with 24 hour staff support

## ADDITIONAL AMENITIES

Living in our homelike setting means that you can enjoy the following amenities:

- WiFi & Cable TVs in each room
- Multiple Common areas
- Library & Chapel
- A variety of daily activities
- Personal Laundry & Linen laundering
- Three daily meals provided
- Exercise class
- Community trips
- Nurse on staff
- Barber shop and hair salon

## A Success Story

During her post-rehabilitation stay, mom was able to continue physical therapy. She did not have to worry about climbing stairs, nor the risk of falling on the stairs or in the shower. It gave me great peace of mind to know that my mother was receiving such excellent care.

I am a strong advocate of Broadview Senior Living. It was good to know that my mother was recovering with good meals and that staff was available around the clock. It was helpful to have socialization and a sense that friends were encouraging mom to keep improving.
